

IMPERIAL KNIGHTS

ARMY RULES

Imperial Knights fight by a stringent set of codes to ensure that in addition to defeating the enemy, honour is always upheld.

CODE CHIVALRIC

If your Army Faction is **IMPERIAL KNIGHTS**, at the end of the Read Mission Objectives step, you must select one of the Oaths below to be active for your army. Models from your army with this ability gain the associated Oath ability, and you gain the associated Deed to complete.

If, at the start of any of your Command phases, your selected Oath's Deed is completed, your army becomes Honoured for the rest of the battle and you gain 3CP (you can only gain CP in this way once per battle, and CP gained in this way are an exemption to the Core Rules that limit the maximum number of CP you can gain per battle round to 1).

LAY LOW THE TYRANT

- **Oath Ability:** Each time this model is selected to shoot or fight, re-roll a single Hit roll of 1 and re-roll a single Wound roll of 1.
- **Deed:** This deed is completed if the enemy **WARLORD** is destroyed.

RECLAIM THE REALM

- **Oath Ability:** Add 1" to this model's Move characteristic and add 1 to Advance and Charge rolls made for this model.
- **Deed:** This deed is completed if you control one or more objective markers in your opponent's deployment zone.

BONDSMAN ABILITIES

Some **QUESTORIS** models have a Bondsman ability, tagged with the word 'Bondsman'. In your Command phase, one or more models from your army with a Bondsman ability can use that ability. For each one that does, select one friendly **ARMIGER** model within 12" of that model (you cannot select an **ARMIGER** model that is already being affected by a Bondsman ability). Until the start of your next Command phase, the **ARMIGER** model you selected is affected by that Bondsman ability.

SUPER-HEAVY WALKER

Each time a model with this ability makes a Normal, Advance or Fall Back move, it can move over models (excluding **TITANIC** models) and terrain features that are 4" or less in height as if they were not there.

FREEBLADES

Freeblades often wander the galaxy, aiding the armies of the Imperium against the xenos and heretics who threaten the Emperor's realm.

If every model in your army has the **IMPERIUM** keyword, you can include either 1 **TITANIC** **IMPERIAL KNIGHTS** model or up to 3 **ARMIGER** models in your army, even if they do not have the Faction keyword you selected in the Select Army Faction step. None of these models can be your **WARLORD**, and they cannot be given Enhancements.

IMPERIAL KNIGHTS – NOBLE LANCE DETACHMENT RULE

If your Army Faction is **IMPERIAL KNIGHTS**, you can use this Noble Lance Detachment rule.

INDOMITABLE HEROES

Gathered into a powerful formation known as a lance, Imperial Knights and the Nobles who pilot them wage their honour-driven assaults with renowned resilience and bloody-minded determination.

All **IMPERIAL KNIGHTS** models from your army have the Feel No Pain 6+ ability. If your army is Honoured, those models have the Feel No Pain 5+ ability.

IMPERIAL KNIGHTS – NOBLE LANCE ENHANCEMENTS

If you are using the Noble Lance Detachment rule, you can use these Noble Lance Enhancements.

REVERED KNIGHT (AURA)

Never hesitating before tyrannical invaders, this Knight is beheld as the very epitome of honour – a monolithic incarnation of the Imperium. While they stand, courage is inviolate and victory is assured.

IMPERIAL KNIGHTS model only. While a friendly **IMPERIAL KNIGHTS** model is within 6" of the bearer, improve that model's Leadership characteristic by 1. If your army is Honoured, increase the range of this Aura ability to 12".

MYSTERIOUS GUARDIAN

Manifesting as though from nowhere, this Noble's titanic steed is an elemental force of vengeance against the Emperor of Mankind's foes. At battle's end, it disappears as mysteriously as it arrived.

IMPERIAL KNIGHTS model only. The bearer has the Deep Strike ability. Once per battle, at the end of your opponent's turn, if the bearer is not within Engagement Range of any enemy units, it can fade away. If it does, remove it from the battlefield then, in the Reinforcements step of your subsequent Movement phase, set it up anywhere on the battlefield that is more than 9" horizontally away from all enemy models. If the battle ends and the bearer is not on the battlefield, it is destroyed.

MYTHIC HERO

This warrior is a legendary figure who embodies the Code Chivalric, and tales of their deeds have spread far and wide. To be a Bondsman to such a warrior is a great honour indeed.

QUESTORIS model with a Bondsman ability only. Each time the bearer uses its Bondsman ability, you can select one additional friendly **ARMIGER** model within 12" of the bearer that is not already being affected by a Bondsman ability. Until the start of your next Command phase, that model is also affected by that Bondsman ability.

BANNER OF MACHARIUS TRIUMPHANT

A gift from Lord Solar Macharius himself to honour the noble houses that accompanied his crusade, legend has it that this banner has never seen defeat: every time a Knight has carried it to war, a great victory has been won.

IMPERIAL KNIGHTS model only. If you control an objective marker at the end of your Command phase and the bearer is within range of that objective marker, that objective marker remains under your control even if you have no models within range of it, until your opponent controls it at the start or end of any turn.

UNYIELDING PARAGON

This Knight is an unyielding army unto themselves, capable of engaging entire enemy forces and holding their ground, emerging through the fiercest firestorms bloodied, but unbowed.

QUESTORIS model only. Each time an attack is allocated to the bearer, worsen the Armour Penetration characteristic of that attack by 1.

IMPERIAL KNIGHTS – NOBLE LANCE

STRATAGEMS

If you are using the Noble Lance Detachment rule, you can use these Noble Lance Stratagems.

SHOULDER THE BURDEN

NOBLE LANCE – BATTLE TACTIC STRATAGEM

When faced with their darkest hour, knightly Nobles rise to the challenge, for nothing shall deter them from fulfilling their duty.

2CP

WHEN: Your Command phase.

TARGET: One **IMPERIAL KNIGHTS** model from your army that has lost one or more wounds.

EFFECT: Until the start of your next Command phase, improve your model's Move, Toughness, Save, Leadership and Objective Control characteristics by 1 and each time your model makes an attack, add 1 to the Hit roll.

RESTRICTIONS: You can only use this Stratagem once per battle. If your army is Honoured, you can use this Stratagem one additional time.

ROTATE ION SHIELDS

NOBLE LANCE – WARGEAR STRATAGEM

Veteran Knight pilots can swiftly angle their ion shields to better deflect incoming fire.

1CP

WHEN: Your opponent's Shooting phase, just after an enemy unit has selected its targets.

TARGET: One **IMPERIAL KNIGHTS** model from your army that was selected as the target of one or more of the attacking unit's attacks.

EFFECT: Until the end of the phase, that **IMPERIAL KNIGHTS** model has a 4+ invulnerable save against ranged attacks.

THUNDERSTOMP

NOBLE LANCE – EPIC DEED STRATAGEM

The Noble brings their Knight suit's full weight crashing down with the force of an industrial piledriver. Few can survive such a blow.

1CP

WHEN: Fight phase.

TARGET: One **IMPERIAL KNIGHTS** model from your army that has not been selected to fight this phase.

EFFECT: Until the end of the phase, your model cannot target **MONSTER** or **VEHICLE** units, but all melee weapons equipped by your model have the [DEVASTATING WOUNDS] ability.

SQUIRES' DUTY

NOBLE LANCE – BATTLE TACTIC STRATAGEM

Under the scrutiny and judgement of their Noble betters, Armiger pilots will redouble their efforts, attacking as one to smash aside their foes.

1CP

WHEN: The start of your Shooting phase or the start of the Fight phase.

TARGET: Two or more **ARMIGER** models from your army and one enemy unit that is an eligible target for all of those **ARMIGER** models.

EFFECT: Until the end of the phase, when resolving attacks that target that enemy unit, improve the Strength and Armour Penetration characteristics of weapons equipped by those **ARMIGER** models by 1. If your army is Honoured, until the end of the phase, add 1 to the Damage characteristic of those weapons as well.

IMPERIAL KNIGHTS – NOBLE LANCE

STRATAGEMS

If you are using the Noble Lance Detachment rule, you can use these Noble Lance Stratagems.

TROPHY CLAIM

NOBLE LANCE – EPIC DEED STRATAGEM

Once a mighty foe is laid low, the victorious Knight's emitters blare its triumph, announcing the glory brought to the Imperium, but shame awaits those who fail in such confrontations.

2CP

WHEN: Your Shooting phase or the Fight phase.

TARGET: One **IMPERIAL KNIGHTS** model from your army that has not been selected to shoot or fight this phase, and one enemy **MONSTER** or **VEHICLE** unit.

EFFECT: Until the end of the phase, each time your model makes an attack that targets that enemy unit, add 1 to the Wound roll. If your model destroys that enemy unit this phase, you gain 1CP, but if your model does not destroy that enemy unit this phase, you cannot use this Stratagem again for the rest of the battle.

VALIANT LAST STAND

NOBLE LANCE – EPIC DEED STRATAGEM

Badly wounded, their Knight's generator on the verge of overload, still the Noble fights on, drawing upon their reserves of chivalric heroism to sell their life as dearly as they can.

WHEN: Fight phase.

TARGET: One **IMPERIAL KNIGHTS** model from your army that was just destroyed and that is eligible to fight but has not been selected to fight this phase. You can use this Stratagem on that model even though it was just destroyed.

EFFECT: Before rolling to see if this model deals any mortal wounds as a result of its Deadly Demise ability, it can fight; when doing so, it is assumed to have 1 wound remaining, or all its wounds remaining if your army is Honoured. After it has finished resolving its attacks, resolve its Deadly Demise ability as normal.

RESTRICTIONS: You cannot target **SIR HEKHTUR** with this Stratagem.
